

A long time ago, when it was free to post your software there, my POS software was listed for download on DOWNLOAD.COM. Following are the reviews of my POS software that were posted there. When reading them please remember that they are reviews of version 1.0 to 4.0 and many of the limitations mentioned (no networking, 28 employees, 5000 lines in the stock table, etc.) no longer apply to the current version.

"Very reliable"
This POS software is the easiest program to set up and make sales at my store. I've seen POS packages costing thousands of dollars worth with only half the things of what this does. It takes care of everything for me:- receipts, cash drawers, printers, journals, customer information, stock tables, employees, reports, transaction sales and refunds.

"simply the best POS"
This cash register software is the best POS business solution ever. It is extremely easy to set up and ring sales and or make difficult things tracking everything that goes on in your store a breeze. It can be run on most platforms, print with most printers, allow saving of sale journals, it can utilize a cash drawer, track 5000 item of stock, track up to 28 employees and their sales, print sales reports, record up to the last 10,000 transactions, accept customer information,

park up to 75 sales plus much much more. This is the best software money can download for free.

"Cash Register Good Value"

This has got to be the ultimate cash register program ever made. It has so many features and is easy to use, that it took 5 minutes for me to fully setup my POS program. Thankyou Mr Harris.

Amanda Bennet 09-Feb-2003 06:40:09 PM

"All in one POS tool"

This POS software is the best and the most easiest cash register program ever! It has tons of features that are very useful in any store! I love it!

"The Best but Can Use Networking"

This is the best POS I have ever used. I would like to see it able to use on a network. It can use mySQL or a database systems to keep inventory, then the registers connect to the data base. or use a flat-file database and setup a dir on the network that looks at the inventory tables. Like local install but tell it to look for inventory on another dir. on the network. Just Ideas that may work. Still this is the best POS for dos around.

"A solid find... try it out."

Well, I am certainly happy with it. The only problem for my business, was that there is no networking as yet. Even so, we installed it at a secondary site, on a piece of equipment we had in storage, and it is performing exceptionally well. What surprised me even more, is the amount of support available for this free program. Not only did the developer help answer my questions, but he pointed me to someone with even more specific knowledge of my operating system to fix another problem. You don't get that kind of help with the "big guys"... I know, I used to work for a big software company. In any case, I love the program, and I love the add-on html converter (which was also free). Keep up the good work.

"How can this be free and work so well??"

This is a fabulous software. I almost hate to rate it as Dale Harris the creator might start to charge for the use of this but I have hard copies of it! It is wonderful! Thanks Dale!

DJ Liljengren M.eD 17-Dec-2002 04:40:10 PM

"Best POS of ALL TIME!!!!"

This is the Best POS Software of ALL TIME, and Dale is a great guy, and Doesn't review his own product. POS 4 is Great, I really appreciate the time and effort that the author has put into this software. I have also, tried Many Many POS systems before Dale's POS, and so far, his is the BEST and most INEXPENSIVE (In fact, FREE!) POS Software Ever. Great Job, and Keep up the good work!!!

Taylor 14-Dec-2002 09:30:13 AM

"Update"

POS 4 is now out. All you people saying "stop reviewing your own program" needs to stop themselves because it is a lie and Dale Harris [software creator] has never reviewed his product. It is rude to lie when you have no evidence at all.

"Free DOS - Program"

Yes it's free. What can say about something that's free. Well, if your playing at your business go for it. It's not a serious program. You're getting what you pay for. All the great reviews are from the author.

Ryan 30-Nov-2002 01:44:16 AM

"Very good"

It works very well and is the best value, It's free, there is no trial or hidden costs!

Taylor 29-Nov-2002 07:54:16 PM

"Great System-Excellent Price"

This software is great and should be put in the POS Hall of Fame. I must have used at least 30 (free and commercial) POS systems before finding this beauty.

"PERFECT PROGRAM FOR FREE"

AROUND US ARE ALL THIS MONEY HUNGRY COMPANIES OR INDIVIDUALS WHO THEY THINK THEY ARE SOMETHING SPECIAL, THEY HAVE THE BEST SOFTWARE BUT THIS PROGRAM IS FOR FREE AND WORKS GREAT.

Maria Ashford 28-Oct-2002 02:16:22 PM

"Easy to use POS"

This is the easiest POS to use. This POS Software has more features than any other. It keeps track of all my inventory, prints reports and individual employee logons! This is the best POS!

Fr33dy 21-Oct-2002 09:37:39 PM

"Most valuable POS software for retail"

It makes purchases, It does voids and returns, It has employee setup, It has a Stock Table and Reporting System. What more would anyone want in a POS? It's free too!

Ghost 20-Oct-2002 10:47:43 PM

"SWEET!"

This program rules. Software never locks up, never a crash. Better than any POS you will pay for i promise!

Ben 20-Oct-2002 04:07:39 PM

"Excellent Point Of Sale Software"

This is the easiest POS software to use. I couldn't believe how easy it was for me to setup a full working POS system in a matter of minutes.

Fred's Hardware store. 20-Oct-2002 06:17:44 AM

"A great program for free."

I was a little reluctant at first, but it seems this POS system does everything my company needs. The only thing I would like to see is networking capabilities, but maybe that will come some day, as it seems this software is still being developed.

Jeremy 17-Oct-2002 10:47:33 PM

"Free Point Of Sale"

This software is the cheapest Point of Sale Software for any retail business. It scans, it prints, it does everything you need a POS system to do.

Richard Wells 16-Oct-2002 04:37:46 PM

"POS of the century!"

POS is the most useful and economic software for my business. The extra features that other free POS software makes this software second to none.

Peter Gammit 10-Oct-2002 09:47:53 PM

"Truly Remarkable Piece of Software."

This software turns your PC into a fully pledged cash register! Wow! Look at these exciting features! Fabulous features all just waiting to be used on.... POS Cash Register!

A Video Store Owner 04-Oct-2002 08:05:17 PM

"Good POS"

This is the best POS I have ever tried. Features = New ones all the time.
Although no debit support. Ease of Use = All good except tax rate screen.
Stability = Never frozen on me; never stopped on me; never nothing. Value =
Best POS under \$995

Jake 15-Sep-2002 04:26:30 PM

""Greatest POS software""

Looks and feels like a real Cash Register setup. Couldn't get any better POS software anywhere. All the features i ever wanted in a POS, all in one place!

Hockey Referee 31-Aug-2002 03:21:36 PM

"Great Program"

This is a cost effective program FREE! better than any other POS I HAVE EVER TRIED

Taylor 27-Aug-2002 07:01:42 PM

"BEAUTIFUL!!!!!!!!!!!!!!!!!!!!!!"

This is a beautiful program, it is great, beautiful, me so happy I got it. It is a great value! ALTHOUGH--- No gift certificate support No USB printer support

Fred's Hardware store. 24-Aug-2002 07:46:38 PM

"How can this be FREE?"

This is great software and I cant believe it's free. I downloaded from here, and had a printer problem. The software designer gave me a detailed solution in a matter of hours. With my old POS software, the stuff I paid for, I had to sit on hold for hours. With this, and question I have, I go to the chat room (yes he even runs a chat room for it) and the programmer answers all my questions. How cool is that?

"POS is great"

The very best POS software you can download.

Alan 12-Aug-2002 08:56:53 AM

"Very quick, compatible & simple - oh and its FREE!"

This software runs on just about anything, a 8086 with MS-DOS, a 386 with Windows 3.1, All Pentium/AMD's with 95-Me, NT, 2000, XP! It can be setup to print to most Parallel Dot, Laser, Inkjet and POS printers (it even activates the cutters, cash drawers & pole displays!) Definitely a must have for any business that requires a cash register, and is perfect for Charities.

Bob 11-Aug-2002 09:08:57 AM

"A great investment..."

It is a great investment, after all it is free. Who ever said freeware isn't good lied.
And new features seem to appear all the time.
